

A257 STONE & TILE CLEAN

LABEL INSTRUCTIONS

Product Description & Directions for Use:

A mildly acidic blend of detergents and solvent designed for cleaning and restoring interior stone and tile floors and other tile surfaces. Stone & Tile Clean is suitable for use on quarry tiles, ceramic tiles, porcelain and other acid resistant stone and tile interior flooring and surfaces, subject to pre-testing. Stone & Tile Clean will effectively remove limescale, grout stains, general soil and grease.

For professional and industrial use only.

Light duty cleaning: Mix 20ml per litre of water (1 to 50).

General cleaning: Mix 100ml per litre of water (1 to 10).

Restoration and limescale removal: Mix 250ml per litre of water (1 to 4).

Always pretest surface in an inconspicuous area with diluted solution before proceeding. Do not use on polished marble, terrazzo, granite, travertine, limestone or other acid sensitive natural stone composites, unless pre-testing indicates that the surface can be cleaned without damage or discoloration.

Avoid contact with aluminium, stainless steel and other metals which may be affected by contact with acids.

Floors: Apply diluted solution by mop, soft brush or scrubbing machine.

Scrub surface if required, then allow short dwell period for cleaning action.

Rinse well with plenty of clean water, then dry thoroughly with wet pick-up vacuum.

Floors can be buffed with a bonnet pad or polishing pad when dry.

Washroom tile cleaning: Apply diluted solution by foam sprayer or washroom machine foam gun. Rinse with water and dry with vacuum or blow drying tool.
